**WEEKLY UPDATE**

**February 11, 2021**

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 104 residents and 84 staff members test positive for COVID-19. As of tomorrow, all our staff have recovered and are back to work. We continue to test staff twice a week since the positivity rate in the community remains above 10%. (currently Williamson County is 16%) We have not had any employees test positive since February 2, 2021. In addition, we are pleased that as of today, we moved our last resident off of the COVID unit and so we are technically COVID free.

We have completed our second vaccine clinic as of last week and now have many residents and staff fully vaccinated.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (512) 334-8000.

Sincerely,

*Leah Gage*

## **WEEKLY UPDATE**

**February 19, 2021**

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 104 residents and 84 staff members test positive for COVID-19. We are now considered to be COVID free since the date of our last positive cases were February 1, 2021. Since this recent outbreak all staff have recovered and returned to work.

We have had two vaccination clinics with the support of Walgreens so we have staff and residents who are fully vaccinated for COVID 19. We have a third one coming soon.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (512) 334-8000.

Sincerely,

*Leah Gage*
